Why invest in Valls Industrial Area?

The area of Valls is located in the heart of Catalonia, and is close and very well connected to the largest industrial and economic areas of the Iberian peninsula, northern Africa and Europe.

Highways:

AP-7 links Barcelona with Europe.

AP-2 and N-240 link Valls with deep inside the Iberian península.

A-27 Tarragona-Valls-Montblanc (AP-2 to Lleida).

High-speed rail station

The high-speed rail station of Camp de Tarragona is five minutes away from Valls.

Port of Tarragona and Reus Airport are 20 km away from Valls.

Barcelona - 90 Km (60 minutes)

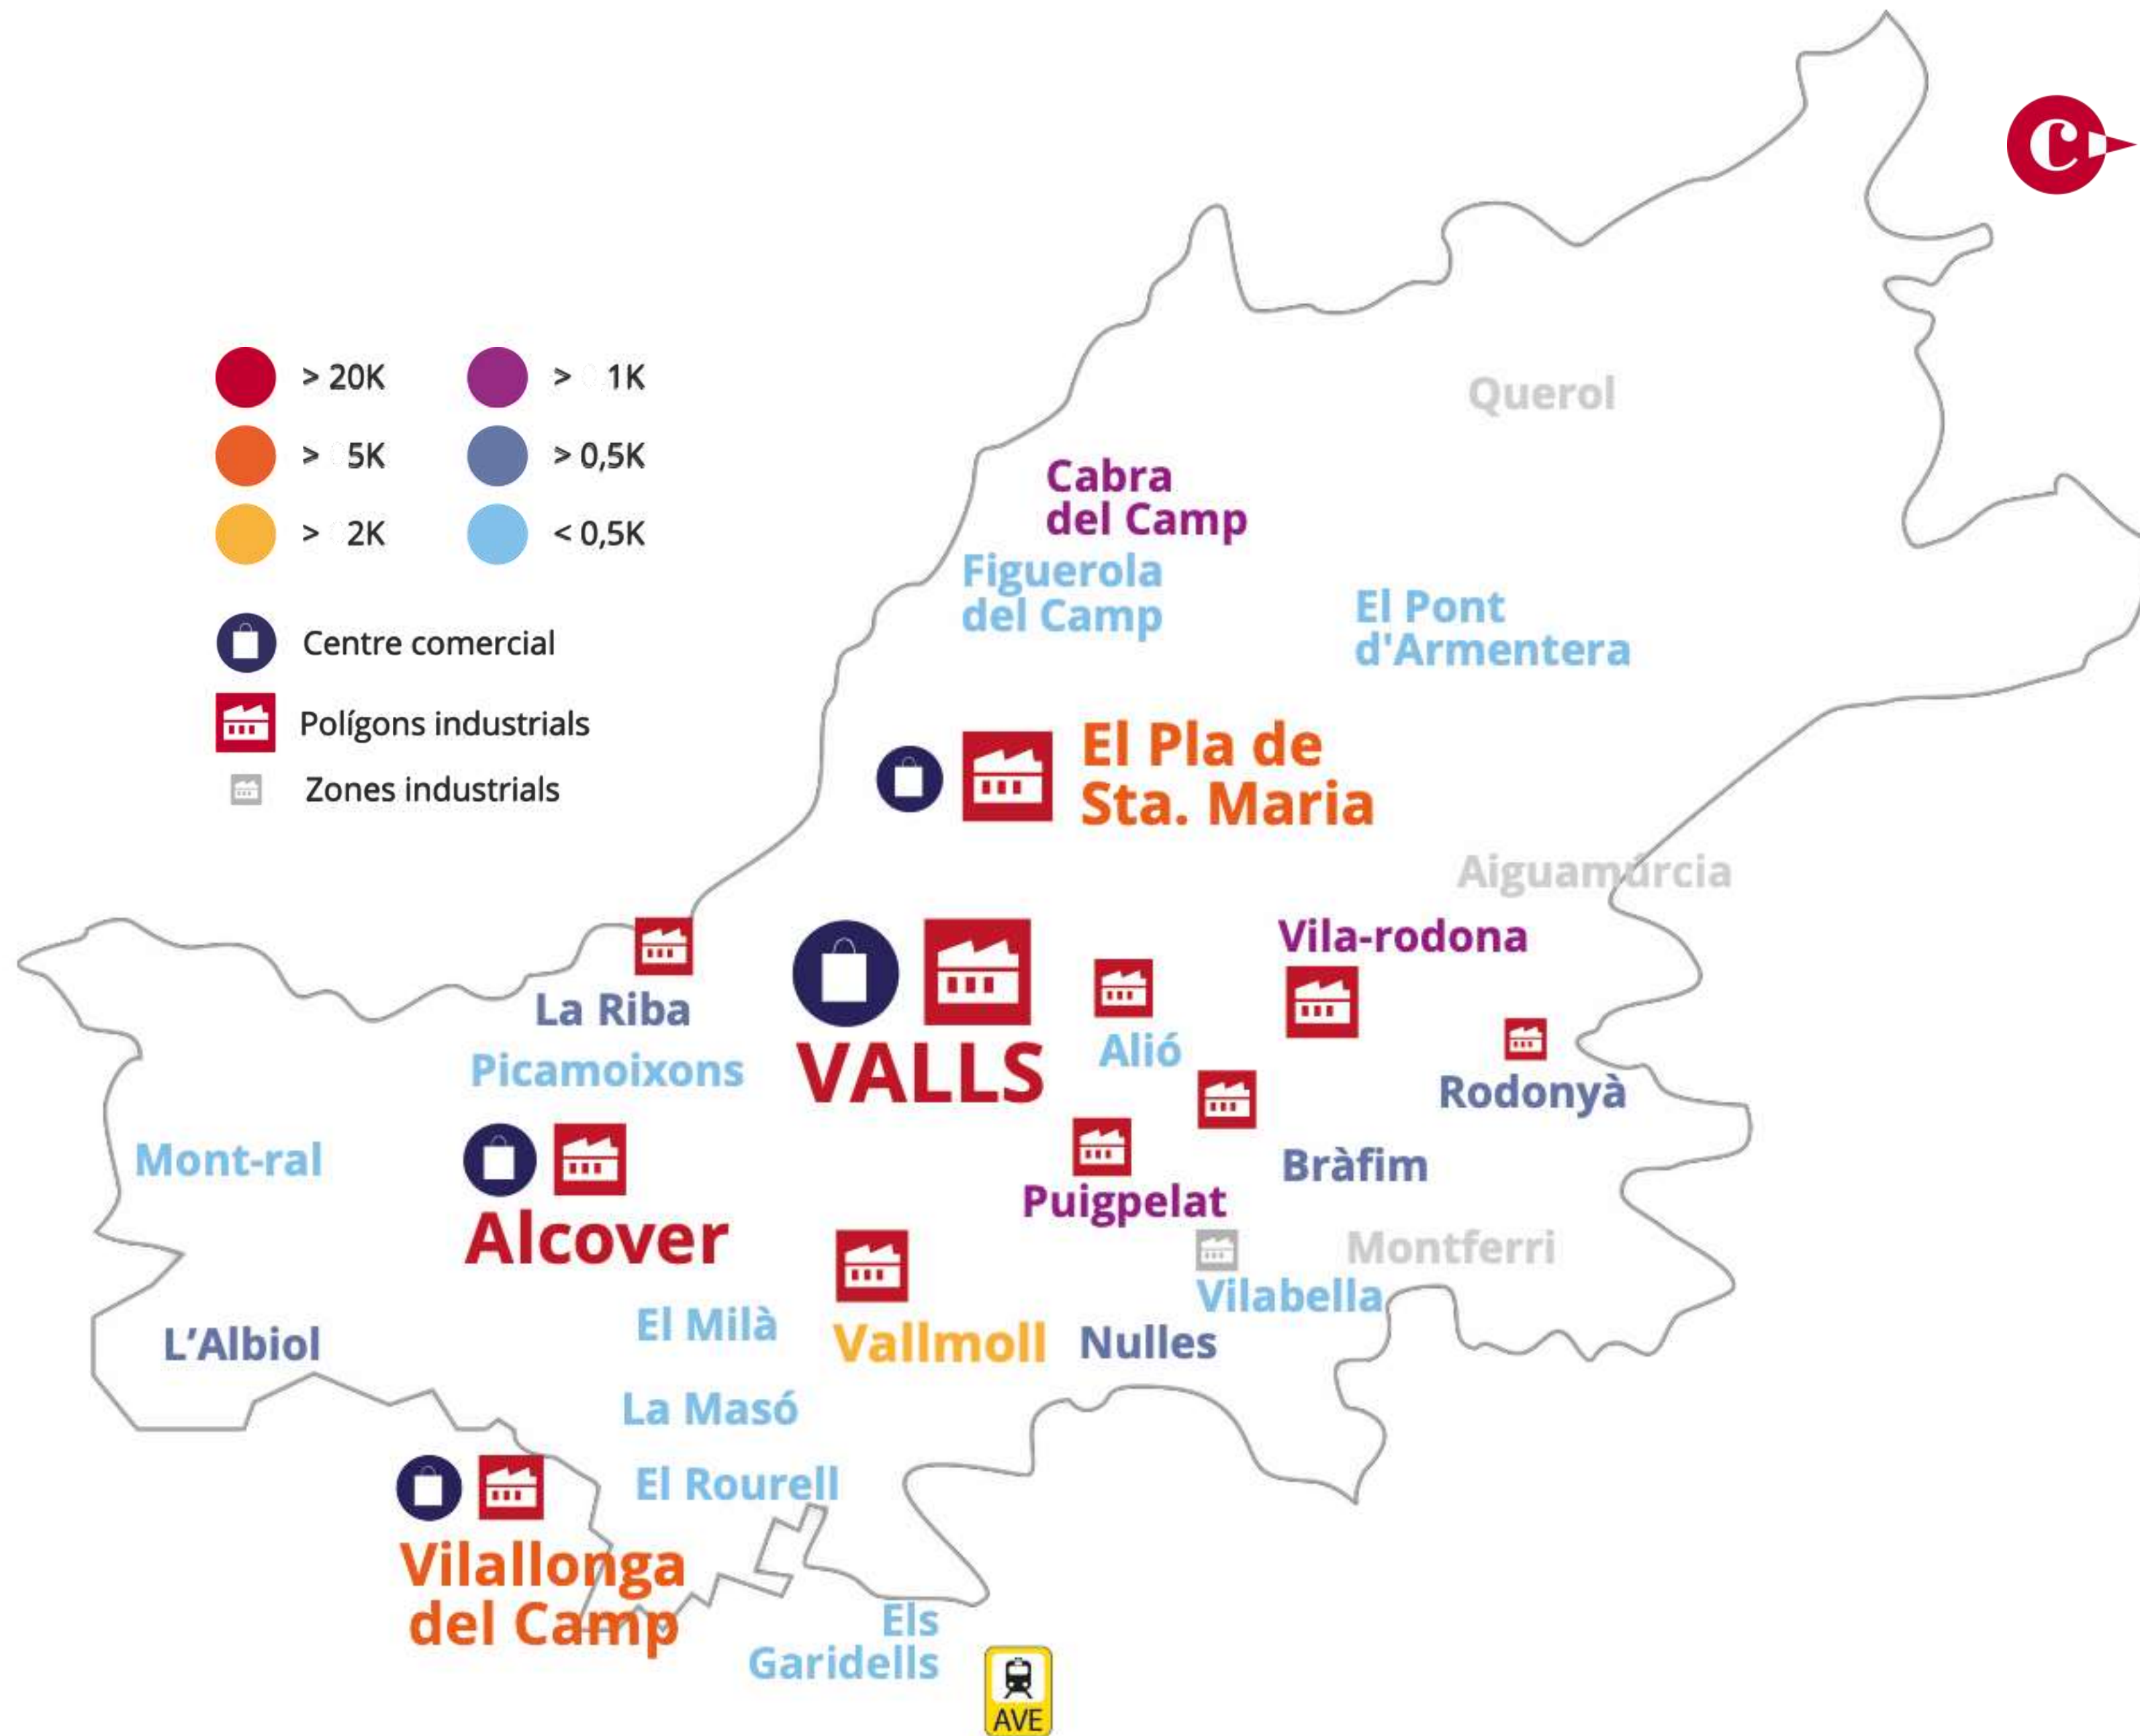

Valls Freight station (upcoming project, already underway in Valls)

Closest freight station to Valls is currently located in Constantí, 20 km away from Valls.

Location & Communications

A good place to live in

The area of Valls has, besides, a top-rated economical and industrial environment, with many great multinationals based there, and located on the Costa Daurada (Golden Coast), one of the most important touristic zones of the Mediterranean.

The area of Valls is a great place to live in. It is located within less than two hours from the main cities of Catalonia, Aragon, Valencia and southern France.

It has a first-class public services, such as Pius Hospital de Valls, the University of Rovira i Virgili, ground-breaking education centers, and cultural, entertainment and sports facilities of high performance.

The area of Valls consists of 23 municipalities, 18 industrial parks, more than 3500 companies and more than 55000 motivated people and ready to work together in the development of its economy and prosperity of southern Europe.
